Part I: Public Notices

◆ Public Notice-Elimination of Non-Emergency Transportation Services for (NCU) Participants

During the 2011 legislative session, the elimination of non-emergency transportation services for NCU participants was approved. Due to budget constraints, the elimination of this service was required to ensure that other vital NCU services could remain intact. The elimination of non-emergency transportation services will be effective upon approval of the August 2011 Public Hearing. Emergency transportation services for NCU participants is still a covered service.
